DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 1 recites that the "handle end" of the planar faceplate member is attached to the "front end of the cylindrical handle", in clause 2, and further states a "means for attaching wrench handle to said substantially faceplate member." It is unclear as to what structural features the applicant is attempting to claim. If the applicant is attempting to state "means for attaching a wrench handle to the planar faceplate member", then the claim would be clear.
4. Claim 3 recites "a plurality of said first and second attachment members", however the examiner finds no support in the drawings or the specification for more than a single first 15 and a single second 16 attachment member.
5. Claim 4 is indefinite because the claim contains a sentence followed by a clause, the clause reciting "In the claims, please make the following amendments:" Claim 4 is also indefinite for lacking support for the "solid metal cusp that attaches to the top and bottom of said faceplate *for the majority of the length of said faceplate.*"

Claim Rejections - 35 USC § 102

6. The text of those sections of Title 35, U.S. Code not included in this action can

be found in a prior Office action.

7. Claims 1-4, as well as understood, are finally rejected under 35 U.S.C. 102(b) as being clearly anticipated by Williams (6,308,596), see in particular Figs. 5 and 6. The examiner notes that the handle 68 of Williams as illustrated in Fig. 4 qualifies as being "substantially cylindrical."

Response to Arguments

8. Applicant's arguments filed 8 August 2005 have been fully considered but they are not persuasive. The examiner maintains the position that Williams, particularly taken as a whole, fully anticipates the pending application.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
